Languages: Russian (Native), English (C1), German (A2)

PROJECTS

Mir.Geo [github link]
Spring 2021

Business architecture for NSPK service Mir.Geo

Mir.Loans [github link]
Spring 2021

Business architecture for NSPK service Mir.Loans

Servo-web [github link]
Spring 2022

Coursework, 2nd year. Web client for Servo platform | *React, GraphQL*

Personal blog [github link]
Summer 2019

Server and web client for blog | *Node.js, React, MongoDB, AWS*

Restapp (in progress) [github link]
February 2023

Coursework, 3rd year. API for restaurant service | *Node.js, PostgreSQL*

Servant.hs API [client link][api link]
December 2022

Simple blog API | *React, Haskell, Servant.hs, MongoDB*

Anregion [link]
Summer 2018

Real estate online catalogue | *PHP, MySQL, jQuery*

Jigsaw Game [github link]
March 2022

App for DnD puzzle game | *Java*

Fractals drawing tool [github link]
November 2020

WinForms app for fractals drawing | *.NET*

Warehouse Project [github link]
March 2021

WinForms app for warehouse management | *.NET*

Directed Acyclic Graphs [github link]
November 2021

Java library for graphs operations | *Java*
